AIRCARE PLUS PLANNED MAINTENANCE PROGRAM

Make: Sullair - 30 hp (6 Months- I,M,I,A) M/N: 3009V S/N: US0124120106 System: 5 Gal.
 Make: Sullair - 30 hp (6 Months- I,M,I,A) M/N: 3009V S/N: US0124120110 System: 5 Gal.
 Dryer: Refrigerated - 200 CFM M/N: SRN200 S/N: 404425600002
 Filters: (1) Filter Element(s) (24 Months)

Routine Maintenance

We will perform routine maintenance at the listed interval per year on your compressor(s) which includes:

- Inspect or change lubricant (up to system capacity listed above)
- Blow out air-cooled heat exchangers/equipment
- Inspect or change oil filter, air filter and air/oil separator
- Inspect or change belts, if applicable
- Test/clean condensate drains
- Supply maintenance record sheets for customer
- Check overall refrigerant or desiccant air treatment system
- Blow out air dryer condenser
- Change out downstream filter elements

Air End Management

We will assess the condition of the air-end of your rotary screw compressor(s) through vibration monitoring performed at the 8,000 hour service and if other indicators are present at the minor service visits.

- Show problems on air end or motor well in advance of failure - saving you money and downtime
- Assist in troubleshooting
- Lower repair costs
- Guarantee maximum uptime

We will provide an oil analysis report for all results that fall outside normal conditions. All reports are available upon request, and history is maintained by Brabazon.

System Check

We will conduct a multi-point inspection of the compressor(s) at the listed interval to:

- Check safety shutdown systems.
- Confirm control system matches plant loads.
- Maintain maintenance records on unit.

- Bill Me: Sign me up for one year at \$2,597.50 bi-annually (\$5,195.00 annually).
 Sign me up for three years with a 3-year price lock.
 Add \$360.00 bi-annually to service control parts, consisting of control line filter, minimum pressure valve, and pressure regulator valve, if applicable (\$720.00 annually).

- ABOVE QUOTE INCLUDES ROUTINE PARTS, LABOR & TRAVEL BASED ON BRABAZON'S NORMAL WORKING HOURS.
- Additional service or emergency service work is billed at Brabazon's standard PM labor rate. Overtime charges may apply.
- Proof of service will be provided in the form of a zero dollar invoice after each visit.
- Prices are based on the availability/validity of certain information such as current condition, system capacity and equipment specifications.
- Visit(s) may be forfeited if Customer does not allow BPC site access.

Any inaccurate information would cause the need for a requote.

Customer PO # (Required): M-021626-1 Date: 2/16/26

Signature: Don Hall email signed proposal to ktrue@brabazon.com

Cancellation Policy:

- One year maintenance agreements will auto renew at pricing in effect at time of renewal. Agreement is cancellable with 30 day notice. Renewal date occurs the first of the month one year after initial service date and each year thereafter.
- If Customer fails to properly notify BPC of termination or terminates during active contract term, Customer will be liable for all expenses incurred by BPC attributable to the agreement, up to and including any dedicated parts and service work already performed.
